Carrying Case:

Not provided

Disposition After Initial Use:

Reusable

Portability:

Nonportable

Mounting Stand:

Not provided

Special Features:

Koxygen saturation: 0-100 pct; 1 pct resolution; 8 second averaging; pulse rate - range: 30-250 bpm, accuracy: porm 2 bpm, resolution: 1 bpm, 8 second averaging; reusable y sensor and reusable adult finger sensor; includes plethysmogram with pulsatile waveform and autogain; alerts: automatic and adjustable limits for oxygen saturation and pulse rate, audio adjustable volume, 2 min silence or off (led indicators), visual flashing numerics upon violated limit & red alert bar indication of sensor disconnect, sensor off patient, low signal, insufficient light, light interference, pulse out of range sensor faulty and monitor faulty conditions; 7-segment led numerics; led pulse bar graph proportional to signal strength

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
