Design Designation:

Intravenous

Tip Type:

Smoothly tapered

Core Fabrication Method:

Not woven

Diameter:

14.000 gage

Material And Location:

Steel, corrosion resisting needle and plastic, polytetrafluoroethylene catheter

Product Name:

Catheter & needle unit intravenous d12 14ga 2.0"lg

Special Features:

Nontoxic; pyrogen-free; self-vented chamber; plastic catheter hub; color-code to denote the size of the catheter; clear flash chamber, peel-back

Style Designator:

Intravenous catheter and needle unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
