**Design Designation:**

Peritoneal

**Tip Type:**

Open end

**Diameter:**

2.5 millimeters

**Material And Location:**

Silicone rubber

**Special Features:**

Barium impregnated silicon elastomer; non pyrogenic; double pouch; open end anti-blok ventricular catheter; electrosensitive device; single use; steam sterilization recommended; for neurosurgical shunting of cerebral spinal fluid

**Style Designator:**

Peritoneal dialysis

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A22100
