Design Designation:

Peritoneal

Tip Type:

Open end

Diameter:

2.5 millimeters

Material And Location:

Silicone rubber

Special Features:

Barium impregnated silicon elastomer; non pyrogenic; double pouch; open end anti-blok ventricular catheter; electrosensitive device; single use; steam sterilization recommended; for neurosurgical shunting of cerebral spinal fluid

Style Designator:

Peritoneal dialysis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
