Overall Length:

13.500 inches

Overall Height:

5.800 inches

Overall Width:

10.000 inches

Portability:

Portable

Voltage In Volts:

100.0 and 120.0 and 220.0 and 240.0

Special Features:

3 removeable lead acid rechargeable batteries; 10.4 inch active matrix color screen with oversized numerics and up to 6 waveforms; stores 24 hours of tabular and graphical trends permanently with data backup in case of power interruption; measures ecg with st, respiration, nibp, pulse oximetry, etcO2, temperatures and 4 invasive pressures

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
