**Overall Length:**

6.690 inches

**Overall Height:**

5.000 inches

**Overall Width:**

3.250 inches

**End Application:**

For use with nsn 6515-01-500-3022, charger, battery; and nsn 6515-01-500-3521, blood fluid warmer system

**Voltage In Volts And Current Type:**

12.0 dc

**Product Name:**

Battery pack recharger 12v 6.69"x 3.25"x 5.0" ei 6515015003027

**Special Features:**

Weight 6.25 pounds; rechargeable battery; includes leds to display the charge level; can be recharged up to 150 times; does not require complete discharged before recharging; warms 2 to 4 liters of iv fluid; warms 1 to 3 units of blood; internal reverse polarity protection; internal over-current protection; high energy density; built-in charge level indicator; no battery memory issues; long shelf life of 3 to 5 years; reusable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
