Inside Diameter:

1.5 millimeters

Outside Diameter:

3.0 millimeters

Design Designation:

Left ventricle

Tip Type:

Tapered

Material And Location:

Silicone rubber

Features Provided:

Stylet

Special Features:

Holes in spiral pattern promote free flow of csf and discourage hole occlusion by debris or tissue; radiopaque silicon elastomer w/stainless steel stylet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
