Unit Package Quantity:

1

Design Designation:

Endobronchial

Tip Type:

Angular

Diameter:

39.000 french

Material And Location:

Plastic

Features Provided:

Flexible

Product Name:

Tube endobronchial d6a 39 fr flexible angular tip rt angle

Special Features:

Right angle; enhanced sight; blue radiopaque marking to end of tube; engineered for safety; large double lumens; carlens; 15mm conn/air adapter; 39french size; if the subject item has been in climate controlled environment for over 60 monthes and has not been utilized, then it's time for disposal

Style Designator:

Endobronchial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
