Overall Length:

10.000 inches

Overall Height:

3.250 inches

Overall Width:

9.500 inches

Current Type:

Ac

Furnished Items And Quantity:

Treatment protocol manual

Portability:

Portable

Product Name:

Stimulator muscle 120v 60hz 10x9.5x3.250in ultrasound

Voltage In Volts:

120.0

Special Features:

Ultrasound specification: multi-frequency ultrasound: 1, 2, 3 mhz. Duty cycle: 10%, 20%, 50% continuous. 3 smartheads available: 2cm, 5cm, 10cm. Power setting: up to 2 watts per cm2. Electrotherapy specifications: channels 3. Dedicated high volt channels: 1. Interferential, premodulated, russian, biphasic, high volt, microcurrent. Patened target feature of interferential. Modifiable frequency ranges. Single, reciprocal, co-contraction in russian, biphasic. Selectable on/off cycle & ramp times for high volt, biphasic, & russian. Modify pulse rate, pulse width in biphasic, russian. Microcurrent & high volt therapy delivered with both elctrodes & optional probes.

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
