Electromedical Indifferent Electrode - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6515-01-501-2312

End Application:
Electrosurgery unit
Product Name:
Electrode indifferent electromedical loop 2s
Special Features:
Electrode loop
Supplementary Features:
All macan accesories may be sterilized by standard methods, all should be clean of blood and tissue debris before sterilization. Standard
methods of sterilization include: autoclave: 273 f at 30 lbs pressure. Dry heat: 320 f, 1 hour. Chemical: any bactericide.
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23900
