Casehardening Indicator:

Not casehardened

Thread Length:

24.0 millimeters

Material And Location:

Titanium

Outside Thread Diameter:

3.5 millimeters

Product Name:

Screw 3.5mm ti canc starlock 24mm length spinal

Special Features:

Canc starlock; total length 24mm (includes thread and collar); part of the cervifix implant system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
