Product Name:

Reducer cap accommodates instruments from 5mm to 12mm

Special Features:

Oneseal reducer cap; self adjusting seal accommodates instruments ranging from 5mm to 12mm; seal minimizes gas leakage around instruments with a small diameter than that of the trocar in use; latches ensure the oneseal is held securely in place during insertion and removal of instruments; easily removed by pulling or pushing up on its side; designed to snap into the open end of an endopath 10/11mm and 10/12mm trocar sleeve housing

Shelf Life:
