Overall Length:  19.020 inches  Overall Height:  19.020 inches  Overall Width:  8.780 inches  Voltage in Volts And Current Type:  115.0 ac  Product Name:  Automatic tablet counter direct fill  Special Features:  The kl15df counts all shapes & sizes of tablets and capsules without adjustments or moving parts; particle discrimination recognizes sm. chips and fragments & a unique vial size indicator displays the correct container size for every batch counted. The ergonomic design specounting at a rate of 15-18 tablets per second with direct fill chute, the kl15df transfers counted tablets directly into a vial or bottle accuratis 99.98%  Supplementary Features:  115v/60hz and internally switchable to 220v/50hz. Weight 21 lbs.  General Description:  Accuracy: 99.97%(less than 3 errors in 10, 000 tablets). count: 500 tablets or capsules or 85 drams. throughput: 1, 500 parts per minusize counted: not applicable. Counts the largest known tablets and capsules.  Shelf Life:  N/a  Unit Of Measure:
