Usage Design:

Finger

Design Designation:

Finger extension assist

Material And Location:

Any acceptable

Design Type:

Acu-spring

Usage Location:

Either finger

Product Name:

Spring extension finger splint pip assist adj 2-5/8" prefab

Special Features:

Lmb acu-spring pip extension assist, does not extend the mp joint while extending the pip joint; indications: joint tightness and flexion contractures force: 15 degrees flexion approx. 12 oz, at 90 degrees flexion approx 6 lbs; 2 5/8 in.; finger orthosis, safety pin, spring wire, prefabricated, includes fitting and adjustment

Supplementary Features:

Measure on the volar surface, distance from the mp crease to the distal finger crease

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-j
