Overall Length:

15.748 inches

Unit Package Quantity:

1

Design Designation:

Fogarty

Tip Type:

Balloon

Product Name:

Catheter vascular occlusion 5 fr 40 cm

Special Features:

5 fr, 40 cm, diameter of inflated balloon 11 mm; effective in gaining temporary occlusion of blood flow in the following applications: small diameter vessels such as those in the distal periphery, operative occlusion of blood supply to specific organs such as the kidney, vascular-neuro surgery procedures such as carotid-cavernous sinus fistulas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
