**End Application:**

6515-01-516-1248 dale601 electrical safety analyzer

**Product Name:**

Neutral switch

**Special Features:**

Small, lightweight, self-contained portable instrument; master range meter; 4-wire kelvin bridge; leakage current can be measured in open/closed neutral, normal/reverse, open/closed ground; all leakage current measurements displayed in uamps; broad range of external measurements; five universal ekg lead connectors, designed for 120 volt operation

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
