Product Name:

Calibrator volume ventilator model pts2000 ver.4.0

Special Features:

Portable; lightweight; single, multifunction screen; displays 20 selected parameters on 10 user-configurable screens; numeric display of two real-time measurements; auxillary menu for O2 calibration and sensor management; provides 12 trigger levels that can be selected for peak low pressure, peak high flow, breath rate and volume; test system includes: pts 2000 tester, power supply, rs232 cable (10ft), pts 2000 shipping box, re/flex inspiratory bacteria filter, barb with coupling, low flow filter, quick connect coupling 1/8in. Female, power cord (120v, 60 hz), and pts 2000 users manual; uses both ventilator and oxygen test systems technology to measure pressure, flow, volume, oxygen concentration, n2o and barometric pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
