**Usage Design:**

Used on electromyography machine

**Material And Location:**

Steel, corrosion resisting cannula

**Special Features:**

Concentric needle electrode; autoclavable; insulated platinum wire; lgth 1.700 in; diameter 0.65 mm; recording area 0.07 mm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A21800
