Overall Length:

3.900 inches

Overall Height:

1.000 inches

Overall Width:

2.750 inches

Current Type:

Dc

Furnished Items And Quantity:

(4) reusable electrodes; lead wires, and 9 volt battery

Portability:

Portable

Product Name:

Stimulator nerve transcutaneous (1) per package

Voltage In Volts:

10.0

Special Features:

Transcutaneous electrical nerve stimulator impluse 2000; dual channels; 8 pulses per burst/2 burst per second; pulse rate (adj) 2-150 hz; output voltage 0-10 volt peak to peak; unit is designed to relieve post-operative, acute and chronic pain; used for pain caused by peripheral nerves and not central

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
