Diameter:

Between 7.6 millimeters and 12.2 millimeters

Length:

81.0 millimeters

Design Designation:

Shiley

Material And Location:

Plastic

Features Provided:

Disposable

Product Name:

Tube tracheostomy low pressure cuffed 81mm length

Special Features:

Low pressure cuffed; inner cannula; protects delicate tissue with its cylindrical cuff; softens at body temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-c
