**Overall Length:**

19.100 inches

**Overall Height:**

26.000 inches

**Overall Width:**

14.700 inches

**Product Name:**

Concentrator oxygen 10 lpm integra ten

**Voltage In Volts:**

220.0

**Special Features:**

10 liters per minute; continuous oxygen; 220 volt; 50 cycle; on board analyzer with 3-light display to continuously monitor performance; control panel mounted on/off switch and circuit breaker conveniently located for ready reset; low resistance flow control knob; includes instruction manual

**Frequency In Hertz:**

50.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T133-f
