Overall Length:

19.100 inches

Overall Height:

26.000 inches

Overall Width:

14.700 inches

Product Name:

Concentrator oxygen 10 lpm integra ten

Voltage In Volts:

220.0

Special Features:

10 liters per minute; continuous oxygen; 220 volt; 50 cycle; on board analyzer with 3-light display to continuously monitor performance; control panel mounted on/off switch and circuit breaker conveniently located for ready reset; low resistance flow control knob; includes instruction manual

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
