Overall Length:

230.0 centimeters

Usage Design:

Used endoscopically to obtain gastrointestinal tissue samples

Design Designation:

Endoscopic biopsy

Unit Type:

Intestinal

Shank Type:

Round

Features Provided:

Sterile and disposable

Special Features:

Cup diameter 2.5 mm; non-spiked; accessory channel 2.8 mm

Material And Location:

Stainless steel one end

Shape:

Cup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51710
