Overall Length:

230.000 centimeters

Action Type:

Compound action

Design Designation:

Endoscopic biopsy

Unit Type:

Intestinal

Jaw Type:

Cupped

Special Features:

Oval cup w/o spike; polytetrafluoroethylene coated; reusable; ssteel flushing port; sheath diameter 2.3mm; olympus active cord connector

Material And Location:

Stainless steel blade

Shape:

Cupped

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51710
