Size Designation:

Small

Special Features:

Fultra sling er 15 degree right, small size (11 in from elbow crease to base of index finger); black w/black foam pillow; w/quick release buckles; adjustable straps; for use after anterior shoulder dislocation or post-op when external rotation is desired; the capsules anterior part hangs loosely during internal rotation; the subscapularis tendon tightens thus closing the anterior joint cavity, helping the labrum keep a good position on the glenoid rim
