Overall Length:

13.125 inches

Overall Height:

5.500 inches

Overall Width:

15.000 inches

Current Type:

Ac/dc

Product Name:

Electrocardiograph

Special Features:

N3, 4, or 6 channel 12-lead ecg tracings; easy-to-use keyboard and menu driven interface; industry-leading warranty and service; optional interpretation software based on proven university of glasgow algorithm; communications options, including both wired and wireless connectivity, provide state-of-the-art methods to distribute and store ecg; 115/230 v ac +/-10%, 50/60 hz at external power source; battery operation: 14.4v nimh recharg battery pack; "tda medstep only"

Frequency In Hertz:

50.00 and 60.00

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
