Design Designation:

Multiple diagnostic testing

Product Name:

Lsi cbfb dual color break apart rearrangement probe

Special Features:

Designed to detect in (16)(p13: q22) and related t(16; 16)p13; q22).The inv(16) has shown to fuse the cbfb gene 16p13 giving rise to a chimeric protein

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-g
