Product Name:

Lithotripter medilas hl20 holmium yag 20w laser

Special Features:

The dornier medilas h 20 is a superior holmium yag laser specially designed for the treatment of stones and soft tissue. The system has the capability to treat a diverse spectrum of urological applications due to its 20 watt power and 2.1 micron wavelength. Irrespective of their hardness and chemical consistency, the high-energy pulses fragment urinary calculi. Complemented by a spectrum of flexible lightguide fibers, virtually all stone locations are accessible in endoscopic applications; dimensions: 109 by 79 by 44cm

Supplementary Features:

No warm-up time; color touch-screen; small spot size; three-mode foot pedal; green aiming beam; pulverizes all stone sizes and types and performs tissue ablation, incision and coagulation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
