Overall Length:

3.625 inches

Overall Height:

5.750 inches

Overall Width:

4.625 inches

Special Features:

Water pressure max. 15 psi; flow accuracy porm 5.0 percent of scale; temperature accuracy porm .25 degrees c or porm .5 degrees f

Functional Description:

Tests water temperature, water flow and resistance designed to accurately and conveniently verify the temperature and water flow functions of most hypo-hyperthermia machines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
