Product Name:

Blanket rescue warming geratherm system

Special Features:

Electrical powered hypothermia prevention and control system that utilizes resistive carbon fibre fabric panels to transform "safe electrical low voltage" 12-24 vdc, into heat; supports full body protection, protecting the intrusion of cooling air; retains heat produced by its active warming panels; includes blanket, power supply, battery charger, cables, case

Supplementary Features:

Blanket geratherm rescue hypothermia prevention system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
