End Application:

ELEC-TR-ODE-IONT

Product Name:

Electrode drug delivery b.L.U.E. Large sz 12s

Special Features:

Designed for localized stimulation with use of lead wires; bi-layer design has ion-exchange buffering layer along with drug reservoir for efficient drug delivery while maintaining safe ph levels (4-8ph); easy to fill treatment pad; foam drug reservoir min

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
