Special Features:

Power rating, 10 difib pulses of 360 joules every five minutes; egg r wave, waforms: square, triangle, sine; a standard usb interface enable computer control and data transfer, and optional ansur pc-based automation software increases productivity; display, intuitive user interface and backlight; 10 electrodes that provide 12 combinations for standardized clinical signals; recharable batteries; selectable pacerbrands; flexible heart-rate settings facilitate rate meter accuracy and alarm testing

Functional Description:

A protable precision test instrument that ensure proper operation and ultimate performance of critical life-support cardiac-resuscitation equipment

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-b
