Casehardening Indicator:

Not casehardened

Thread Length:

20.0 millimeters

Material And Location:

Titanium

Outside Thread Diameter:

8.0 millimeters

Product Name:

Cannulated interference screw

Special Features:

Nonsheathed for femoral or tibial fixation of acl/pcl grafts; sterile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-m
