Overall Length:

14.500 inches

Overall Height:

5.200 inches

Overall Width:

12.800 inches

End Application:

Adapteur power system ii set ar-8300s

Product Name:

Aps ii control console

Voltage In Volts:

240.0

Special Features:

Designed for multiple orthopaedic procedures; two fully functional channels that allow simultaneous handpiece operation; both channels can be operated with single footswitch or individually when a second footswitch is attached to console; 110-240vac, 6.3a; power consumption 10a/250v

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
