Size:

Large

Features Provided:

Disposable and adjustable and nonsterile

Product Name:

Sleeve compression scd express lg adj disp 5pr

Special Features:

Knee length; the compression sleeve contains three bladders to deliver circumferential, sequential and gradient compression to ensure clearance of the deep veins without the risk of distal blood trapping. The sleeve is anatomically designed with adjustable sleeve closure offering a customized fit for each patient. The sleeves are available in thigh or knee length. Packaged in pairs; 5 pr/pkg; disposable; adjustable
