**End Application:**

Surgical by-pass operations

**Component And Quantity:**

Independent drive modules, 2; compressors, 4; uninterruptible power supply (ups), 1; digital monitors, 7; pressures gauges 2; alarms, 4; touch pads, 2

**Features Provided:**

Dual-controlled operation method

**Product Name:**

Dual drive console

**Special Features:**

Ventricular assist device pneumatic drive system; drive console operated from ac supplied via an isolation transformer; self-contained batteries provide power to operate module electronics in case of power failure or during patient transport; 240vac

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T107-a
