**Design Designation:**

Yasargil

**Material And Location:**

Cobalt alloy err-100 err-100

**Product Name:**

Clip aneurysm yasargil phynox perm 10mm blade 90 degrees angle ster

**Special Features:**

Permanent; 10.0 mm blade; 90 degree angled; phynox (co-cr-ni) alloy; non-magnetic; mri safe up to 3 tesla; 5.6 mm maximum opening; 200 gm (1.96 n) closing force; can be resterilized provided it has not made contact with a patient prior to resterilization

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-c
