Design Designation:

Yasargil

Material And Location:

Cobalt alloy err-100 err-100

Features Provided:

Sterile

Product Name:

Clip aneurysm yasargil phynox perm 5mm blade 90 degrees angle ster

Special Features:

Permanent; 5.0 mm blade, 90 degrees angled; non-magnetic; mri safe up to 3 tesla; 5.6 mm maximum opening; phynox (co-cr-ni) alloy; 200 gm (1.96 n) closing force; can be resterilized provided it has not made contact with a patient prior to resterilization

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
