Design Designation:

Yasargil

Material And Location:

Cobalt alloy err-100 err-100

Features Provided:

Sterile

Product Name:

Clip aneurysm yasargil phynox temporary 20mm blade straight ster

Special Features:

Temporary; 20.0 mm blade, straight; phynox (co-cr-ni) alloy; non-magnetic; mri safe up to 3 tesla; 11.4 mm maximum opening; 90 gm (0.88 n) closing force; can be resterilized provided it has not made contact with a patient prior to resterilization

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
