Occasional Lawrence
Overall Length:
40.0 millimeters
Overall Diameter:
Between 7.0 millimeters and 9.0 millimeters
End Application:
Surgical implants
Usage Design:
Carotid stent system
Construction:
Interlocked mesh
Product Name:
Xact carotid stent system
Special Features:
International part number only; must be ordered by surgeon
Material:
Titanium alloy
Material:
Titanium alloy
Shape:
Tapered
Special Test Features:
Nitinol contruction
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T133-l
