End Application:

Carotid artery emboli, stenting

Tip Type:

Filiform

Diameter:

6.0 millimeters

Catheter Length:

190.0 centimeters

Material And Location:

Platinum tip

Features Provided:

Depth graduation markings and x-ray opacity

Special Features:

Emboshield barewire embolic protection system; 0.014inch rapid exchange system; wire support 6mm diameter; complete filter capture during retrieval; zebra stripes on proximal 8cm of wire to identify barewire; 0.019inch step for filter retrieval at end of procedure; 3cm shapeable platinum tip

Precious Material And Location:

Tip platinum

Precious Material:

Platinum

Special Test Features:

Federal (usa) law restricts these devices to sale by or on the order of a physician

Style Designator:

Balloon embolization

Supplementary Features:

Wire lumen for free overment on barewire; hydrophilic surface coating; internal nitinol frame; polyurethane membrane; 140 micron pores; radiopaque markers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
