End Application:

Nyha class ii, iii, iv heart failure

Features Provided:

Electrostatic sensitive

Product Name:

Cardiac resynchronization therapy system

Special Features:

6mm 25gram cardia resynchronization therapy pacemaker; at/af diagnostics; stored electrograms

Functional Description:

Used to treat symptoms and complications associated with heart failure (hf)

Special Test Features:

Mri, emi and rf sensitive; federal law (usa) restricts this device to sale by or on the order of a physician

Supplementary Features:

Is-1 connector; 11.5cc; v-v timing; ddt mode; af suppression algorithm; negative av/pv hysteresis with search; auto mode switch

Type/model Designation:

Frontier ii model 5596

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
