Design Designation:

Nasal

Tip Type:

Flexible tungsten-weighted guide tip

Diameter:

43.000 inches

Special Features:

"y" port polyurethane tube c-19 water activated lubricant on internal lumens and distal boluses; also, flexible tungsten-weighted guide tip for greater patient comfort during intubation

Style Designator:

Nasal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
