Overall Length:

Between 36.000 inches and 44.000 inches

Material And Location:

Aluminum body and rubber handgrip and rubber underarm

Features Provided:

Adjustable

Product Name:

Crutch alum youth sz adj 36-44"

Special Features:

Medline push button crutches: double extruded center tube provides load-bearing strength where it's needed the most while special footpiece utilizes durable rivets to secure the aluminum tubing from the inside, providing more stability than plastic connectors. Patented i-beam center post limits footpiece rotation to a 1.4 turn, always keeping the push-button in view and facilitating easy adjustment. Long, virtually unbreakable stair deflector helps protect against the crutch slipping on stairs and helps increase stress tolerance at all angles without cracking; non-skid rubber tips provide good traction. Built-in metal ring helps prevent excessive wear and ensures durability.

Crutches come packaged completely accessorized with no assembly required

Special Test Features:

Latex free; red dot crutches: clip-lock adjusted handle and push-button adjusted height allows for 10 second adjustments. 1inch adjustment increments on both handle and height provide a precise fit which reduces muscle fatigue. High density latex free rubber cushions and hand grips provide long wear and greater comfort; fits youth 4ft 6 inches to 5ft 2inches

Shelf Life:

N/a

Unit Of Measure:
