Overall Length:

Between 30.000 inches and 38.000 inches

Material And Location:

Aluminum body and rubber handgrip and rubber underarm

Product Name:

Crutch alum child sz adj 30-38"

Special Features:

Children's auxiliary crutches: push-button adjusted foot piece with fitting guide on crutch foot piece provides accurate fitting; 1in. Adjustment increments on both handle and height provide a precise fit, reducing fatigue; latex free rubber components

Special Test Features:

Medline push button crutches: double extruded center tube provides load-bearing strength where it's needed the most while special footpiece utilizes durable rivets to secure the aluminum tubing from the inside, providing more stability than plastic connectors. Patented i-beam center post limits footpiece rotation to a 1.4 turn, always keeping the push-button in view and facilitating easy adjustment; long, virtually unbreakable stair deflector helps protect against the crutch slipping on stairs and helps increase stress tolerance at all angles without cracking; non-skid rubber tips provide good traction; built-in metal ring helps prevent excessive wear and ensures durability; crutches come packaged completely accessorized with no assembly required; 250 lb weight capacity; child sz up to 4ft. 6inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-j
