Inside Diameter:

0.071 inches

Overall Length:

20.000 inches

End Application:

Contrast injection, surgical equipment

Unit Package Quantity:

25

Design Designation:

Intravenous

Connector Type:

Male luer lock

Catheter Length:

51.0 centimeters

Material And Location:

Plastic, polyurethane tube

Features Provided:

Flexible and disposable

Product Name:

Surgical tubing

Special Features:

Flexible, braided polyurethane tubing; pressure rating 1200 psi (83-84 bar); fluid capacity 1.36ml; sterilization method eto; coiled, 25 units per box; 4 boxes per case; sherlock connectors; airless rotating adaptor

Style Designator:

Line tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
