Special Features: Blunt thread design assists in protecting the graft. Driver design distributes torque evenly throughout the entire screw to help prevent the screw from breaking or stripping. Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:	
End Application: Interference screw Outside Thread Diameter: 9.0 millimeters Product Name: Gentle threads round head resorbable screws Special Features: Blunt thread design assists in protecting the graft. Driver design distributes torque evenly throughout the entire screw to help prevent the screw from breaking or stripping. Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:	Thread Length:
Interference screw Outside Thread Diameter: 9.0 millimeters Product Name: Gentle threads round head resorbable screws Special Features: Blunt thread design assists in protecting the graft. Driver design distributes torque evenly throughout the entire screw to help prevent the screw from breaking or stripping. Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:	25.0 millimeters
Outside Thread Diameter: 9.0 millimeters Product Name: Gentle threads round head resorbable screws Special Features: Blunt thread design assists in protecting the graft. Driver design distributes torque evenly throughout the entire screw to help prevent the screw from breaking or stripping. Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:	End Application:
