Overall Length:

14.000 inches

End Application:

Pectus excavatum and other sternal deformities

Design Designation:

Flat flexible curve

Material And Location:

Steel, corrosion resisting

Product Name:

Pectus bar implant

Special Features:

Stainless steel astm f138; uses pectus bar emplate p/n 01-3814; each pectus bar is bent to patient specifications with a pectus bar bender before being implanted

Flexibility:

Rigid

Supplementary Features:

Minimally invasive surgical procedure developed by dr. Donald nuss and called mirpe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-a
