Overall Height:

2.100 inches

Overall Width:

3.300 inches

Current Type:

Dc

Furnished Items And Quantity:

Electrocardiograph 1; connect device 1

Voltage In Volts:

5.0

Special Features:

32 mb storage; for 24 hour holter monitoring; recording channels: ecg - 3, movement level 1 and pacemaker pulse 1; pacemaker detection ch1; time data backup within 1 week; digital recorder; on-board memory; patient event button; handheld controller; compatibl with the mars pc holter systems; powered by 4 aaa alkaline batteries; 125 sps digital sampling; 10 bit, 8 ms sampling a/d conversion; 20 uv/lbsb digital storage; 16 mv p-p input level; 0.05-40 hz frequency response; 10 megohm input impedance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
