End Application:

Surgical fixation systems; acl and pcl reconstruction

Product Name:

Xo button implant, metal

Special Features:

Pre-stretched woven 55mm continuous loop xo button implant; inherent rotational moment (i.R.M.) for effective seating on the femoral cortex

Supplementary Features:

For extracortical, soft tissue fixation in cruciate reconstructions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-c
